- D. Wooden block

Wooden boats

Exploding lollipop sticks

Mobius strips

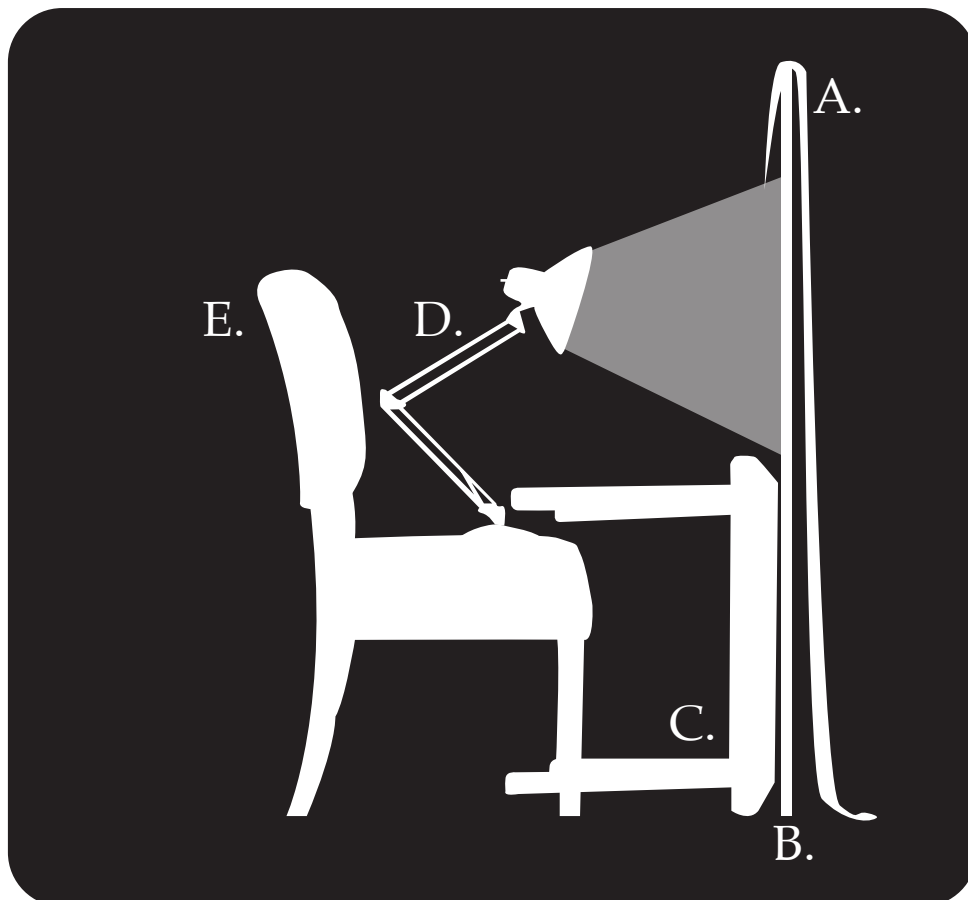

3D pictures

Friendship bracelets

Shadow puppets

Key

- A. Sheet
- B. Frame
- C. Table on its side
- D. Lamp
- E. Chair

Origami boats

1. Fold an A4 piece of paper in half.

2. Fold the two top corners in to the centre. (You may need to make a crease first.)

3. Fold up the lower edge of the paper. Turn over and do the same on the other side.

4. Tuck the corners of one of the rectangular sections in behind the triangle.

5. Hold the triangle near the top and squash it in, so that it collapses into a square shape.

6. Fold up the bottom corner of the square. Turn it over and do the same on the other side.

7. You should now have a shape that looks like this.

8. Holding the base and the top of the triangle, gently pull the points of the triangle apart and allow the sides to lift up. It should open up into a boat shape that will float on water.

The amazing walk through a card trick
